PROFILE

An aspiring software developer and tech enthusiast. Aiming to create a wide variety of gaming projects and innovate aspects of programming such as automation and machine learning. I seek to gain much knowledge and experience through my work and accomplish my goals whilst contributing to the tech industry.

PROJECTS

- Comparative Study: Counting Sort VS Strand Sort Algorithms Oct 2024 - Dec 2024
 - Made a study about the difference in data handling efficiency between strand and counting sort in a grade evaluation use-case using SQLite, Python and a WebApp developed via Flask and JS used for testing.
- Batong Malake Information Management System Jan 2025 - Ongoing
 - Establishing an IMS via WebApp using JS, Tailwind, Java, and SQL to make the data procedures regarding the Gender and Development Office's project more efficient and less manual.

CERTIFICATIONS

- May 2024
PointWest Inc.
AWS GenAI Innovator

SKILLS

Experience in Web Development

Professional Experience
in Graphic Design

Novice level in C#, Python,
JS, & Java Programming

Professional Experience
in Video Editing

Computer Hardware
Knowledge

Proficiency in
Microsoft 365

Collaboration

Leadership
